## AIR:LINK 3000DG

Wireless Gigabit Router - Dual Band

ModelNo: AL3000DG

### Air:Link Dual Band EXTREME-N

A range of products based on Dual Band technology (2.4 GHz and 5 GHz) complying 802.11 a and 802.11 n with MIMO antenna technology.

The perfect combination with less interference, extreme range, extreme speed, better stability and high security. All Air:Link™ Dual Band EXTREME-N products are compatible with other 802.11 a/b/g/n products.

### Concurrent Dual Band wireless

Equipped with 2 high speed access points (2.4 GHz and 5 GHz) to avoid interference, which can be used simultaneously.

### Gigabit

Four 10/100/1000 Gigabit Ethernet ports deliver ultra-fast wired connections

### QoS – Quality of Service

Quality of Service provides an efficient way for PC's on the network to share the Internet bandwidth with a promised quality of Internet service.

### Wireless network secured

You do not need to worry about the safety on this routers wireless network. It is already secured with WPA/WPA2. The security code is stated on the top and bottom of the router.

### Unique Wireless Network Name (SSID)

This router has its own unique wireless network name (SSID), both on 2.4 GHz and 5 GHz band. This feature gives you more stable wireless network.

### WPS via Push-button

WiFi Protected Setup (WPS) is the easiest way to build secured wireless network.

### Universal Repeater

Expand the range of your wireless network.

### Internet Scheduler

You can close the connection to internet on specified day and time on specified computer.

On/Off switch

Easily turn On/Off your wireless network

### General Features

- Complies with 2.4 GHz and 5 GHz IEEE 802.11a/b/g/n standards
- High speed data rate – up to 300 Mbps
- Advanced MIMO technology, enhancing the throughput and coverage range significantly
- DHCP Server
- Web User Interface (with Remote Configuration)
- Firmware Upgrade
- Built-in Firewall with SPI and DoS
- Virtual Server/DMZ
- Supports WMM function to meet the multimedia data bandwidth requirement
- Supports DDNS (DynDNS, TZO)
- VPN Pass Through (IPSec/PPTP)
